

Quality Clause 243900 - Health, Safety & Environmental Requirements (08/10/18)

- 1) Suppliers, contractors, and sales personnel are required to wear ANSI-approved eye protection and foot wear (safety glasses and safety shoes). This condition applies only to areas considered manufacturing and other designated areas.
- 2) All hazardous substances and materials delivered to or used at Rolls-Royce facilities shall be appropriately labeled. Labels shall be undamaged, easily readable and firmly affixed to the material and/or shipping container. Labels shall indicate the material hazard level using the Globally Harmonized System (GHS) as represented in the associated Safety Data Sheet (SDS).
- 3) Safety Data Sheets (SDS's) shall be emailed to RRNMI.Certs@rolls-royce.com with the email subject line as follows: "SDS for (*insert chemical name*) on PO XXXXXXXXXXX".
- 4) This must be done prior to delivery or use of a chemical or material at Rolls-Royce facilities. The chemical name, manufacturer, and part number shall be referenced in the email subject line. The SDS shall accompany all chemicals and materials delivered to or used at Rolls-Royce facilities.
- 5) The SDS shall provide, at a minimum, detailed information for the chemical or material regarding the physical properties, health hazards, exposure limits, exposure symptoms, spill handling procedures, first aid, health effects, toxicological data, and all other elements required under the GHS program.
- 6) Any vendor who supplies chemicals to perform services or other disciplines shall remove unused chemicals from the site, including empty containers, in accordance with all associated transportation and environmental, health, and safety regulations.
